

Application No. 09/671,555
Amendment dated April 11, 2006
Response to Office Action of January 11, 2006

Atty. Docket No. 042390.P4525D

Remarks

Applicants respectfully request reconsideration of the present U.S. Patent application as amended herein.

Claims 28 and 43 have been amended. Claims 29 and 44 have been cancelled. No new claims have been added. Thus, claims 1-28, 30-43, and 45-56 remain pending.

The Office has indicated that claim 29's installed augmented browser control is allowable subject matter. In an effort to expeditiously conclude prosecution, the subject matter of claim 29 has been incorporated into claim 28, thus allowing that claim series to pass to issuance.

Regarding corresponding claim 44, similar limitations from claim 29 have been incorporated into independent claim 43, thus allowing that claim series to pass to issuance as well. Regarding the Office's discussion regarding use of the language "providing" versus "installed" it is respectfully submitted that the Office's position is not being substantively reviewed at this time due to the issue being moot from Applicant's simplifying the Office's prosecution review by incorporating the allowed subject matter of claim 29 into both independent claims 28 and 43.
